- Track down the books and articles that you need for your academic work
- Access Oxford's extensive online collections – many of the materials that you will need are not publicly available on the WWW!
- Find out about ordering materials from the remote book store, reserving and borrowing items and your loan allowance
- Familiarise yourself with Library services and facilities such as computing, photocopying and scanning
- Find out who can help you to find publications and information

Please check the times of your Library session below.

All map references refer to the “Map of Libraries in Oxford” (see the back page or pick up a printed copy in College).
