New Inn Hall Street  
Oxford  
OX1 2DL

August 2011

Dear Visiting Student,

In preparation for you arriving at Oxford in October I have made a number of documents available online at: [www.spc.ox.ac.uk/text/302/information\\_for\\_new\\_students.html](http://www.spc.ox.ac.uk/text/302/information_for_new_students.html)

Please fill in and return as soon as possible the next of kin form and mail the medical forms to Jericho Health Centre, Oxford OX2 6NW. It would also be helpful if you could send 2 passport photos to us now (you may also like to bring one or two spare ones with you – they can be very useful and queuing for photo-machines in October can be tedious).

You should also find enclosed some tips from previous Visiting Students, a map and a bus timetable to help you get from the airport to Oxford.

Could you let us know if you have any medical conditions or allergies?

Keep sending e-mail to the Admissions Officer, Martin Brown ([martin.brown@spc.ox.ac.uk](mailto:martin.brown@spc.ox.ac.uk)) if you have any queries.

**See you on Sunday 2<sup>nd</sup> October. Don't turn up before** unless absolutely necessary and give us plenty of notice. You should contact our Accommodation Manager, David Launchbury, ([david.launchbury@spc.ox.ac.uk](mailto:david.launchbury@spc.ox.ac.uk)) if you have any queries about your accommodation. It may be possible to make your room available before Sunday 2nd October.

When you arrive the Porters will give you a detailed programme of Freshers Week events. You should also check your pigeon hole (mail box) just in case there are any notes from your tutors. There will be plenty of students around to help show you where to go and I'll be here too and will be looking out for you.

If any friends or relatives are accompanying you or plan to come and visit while you are here please note that you are only allowed to have guests staying in your room if you have given their names to the lodge. This is essential for safety reasons.

Enjoy the rest of your summer!

All the best,

Dr Hartmut Mayer  
Tutor for Visiting Students
