

Economics Options

Our economics tutors may require you to take one or more of the core papers when they feel it would be essential to ensure that you would fully benefit from the teaching of your choices of options. They may also require you to take some mathematics and/or statistics classes. A good level of algebra and calculus is assumed in many of the lectures and tutorials, both for the core and option subjects. Below is a list of courses that are usually available, the terms in which they can be taken (MT: Michaelmas term, Oct-Dec; HT: Hilary Term, Jan-Mar; TT: Trinity Term, Apr-Jun.) and any pre-requisites.

Core Papers:

Quantitative Economics (This is a first Econometrics course) (TT)

Macroeconomics (HT, Introductory Macroeconomics)

Microeconomics (MT, Introductory Microeconomics)

Options:

Microeconomic Analysis (HT, Microeconomics)

Money and Banking (MT, HT, TT, Macroeconomics)

Public Economics (MT, TT, Microeconomics)

Economics of Industry (MT, HT, Microeconomics)

Labour Economics and Inequality (HT, Quantitative Economics)

International Economics (MT, TT, Microeconomics, Macroeconomics)
