

Liverpool Hospital
France

Aug 13th / 1914

I hope to get my bear and go home, after
25th of this month. Could it be you come too?
M.C.

Dear Sir, Chris

I know what you will be
feeling, and that you will be broken-hearted
because you did'nt get to Noel in time.
I think it nearly broke mine - for even
though I telegraphed for news ^{to the hospital} I could
get none, and I could'nt find
out which C.C.S. he was in. And after
all he had gone home before we knew
that he was even wounded. Thank
God he probably did'nt suffer much, and
he was amongst friends.

I can't realise two years without
him - but he will never be dead, to us.

With all my love

Mary
